

# Labels that Last

## Durable 520 White VOID Polyester

**Description:** This tamper-evident polyester has a ultra-smooth topcoat for fine resolution printing. When attempting to remove this label, its patterned, aggressive adhesive leaves behind a distinct and highly visible "VOID" message.

Common uses include asset tracking and warranty tracking in the automotive, electronics and pharmaceutical markets.

**Recommended Printing Ribbons:** EIM T84, T68

	Face Stock	Adhesive	Liner

<b>Basis Weight</b>	-	-	50#
<b>Min. Application Temp.</b>	-	45°F (7°C)	-
<b>Service Temp. Range</b>	-	-20°F to 212°F (-28°C to 100°C)*	-
<b>Exterior Life</b>	Two Years*		

\* **NOTES:** Please allow 24-48 hours for your labels to setup before testing for tamper evidence. The tamper evident features of this product will become permanently non-functional if it is exposed to temperatures above 104°F (40°C). Additionally, if this material is used outside, the white coating may turn yellow with extended exposure to sunlight.

	Temperature	Humidity	Shelf Life
<b>Recommended Storage Conditions</b>	70°F (21°C)	50% R.H.	Two Years

**NOTE:** Due to the variety of application conditions, Electronic Imaging Materials strongly encourages the end-user to do thorough testing of all label products under consideration to make sure they will meet the application requirements.
