

Labels that Last

267 White Direct Thermal Plastic CryoLabel®

Description: For high-sensitivity direct thermal printing, this durable synthetic does not require a transfer ribbon, so it is ideal for facilities that need to comply with privacy regulations such as HIPAA. The tough, layered plastic construction offers excellent resistance to moisture, oils, and other agents.

It has the same “all temperature,” glove-friendly adhesive as our 563 White and 585 Clear thermal transfer products making it suitable for extremely cold temperatures. It also will bond to a wide variety of surfaces over a broad temperature range.

Adhesive Regulatory and Compliance: FDA 21 CFR 175.105 for Indirect Food Contact

	Face Stock	Adhesive	Liner
Type	Plastic	Permanent	Bleached Kraft
Color	White	Clear	White
Caliper	2.9 mil	0.06 mil	3.2 mil
Min. Application Temp	-	-10°F (-23°C)	-
Service Range Temp.	-	-112°F to 200°F (-80°C to 93°C)	-
	Temperature	Humidity	Shelf Life
Recommended Storage Conditions	72°F (22°C)	35% to 85% R.H.	One Year

NOTE: Due to the variety of application conditions, Electronic Imaging Materials strongly encourages the end-user to do thorough testing of all label products under consideration to make sure they will meet the application requirements.
