

Labels that Last

673 Clear EverPeel® Plastic with Removable / Repositionable Adhesive

Description: This thermal transfer printable material offers a truly unique acid-free adhesive that will permanently stick to all types of surfaces and yet it can be cleanly removed. The adhesive has excellent UV resistance and is more aggressive than any other removable formula, yet it will not build up adhesion. It will stick in cold damp conditions, and bond to most smooth surfaces like metal, glass and hard plastic with long-term removability. It will even work on challenging surfaces like waxed candles, textured PVC or Teflon. It is not recommended for paper but will work on varnished or waxed corrugated.

Applications include but are not limited to retail POS labels, furniture and cabinet manufacturing, window and mirror decals, and instruction labels.

Recommended Printing Ribbons: T68 Resin

Compliance: CONEG Model Toxics Packaging
FDA 21 CFR 175.105 for Indirect Food Contact

	Face Stock	Adhesive	Liner
