Electronic Imaging Materials, Inc.

Labels that Last

Aluminum FloorCode™ Impact

Description: This rigid aluminum label holder featuring a recessed, impact-protected barcode insert is ideal for demanding warehouse applications. The durable frame with sloped edges prevents lifting and withstands scuffing, scraping, and scratching from forklift traffic and pallets, while safeguarding barcode readability, even in high-activity environments. A powerful, industrial-strength adhesive backing delivers secure attachment to standard, polished, and epoxy-coated concrete surfaces.

When properly installed, it performs well in refrigerated warehouses, frozen distribution centers, and condensation-heavy environments.

This label holder is available both with and without the insert. If label material is needed in place of the insert EIM offers labels to pair with the label holder. Consult your Label Expert for more information.

Frame Dimensions: 5″ x 2″

Label Dimensions: 4 5/8″ x 1 3/4″

	Facestock	Adhesive	Liner
Type	Aluminum	Permanent Acrylic	Kraft Paper
